

Upgraded Academic & UHNWI Deep Research & Response Dossier

Comprehensive Research Alignment & High-Response Outreach Playbook for Key Alliances

Sovereign Entanglement Asset Systems (SEAS) | Verified: July 26, 2026

1. Elite Academic Professors & TDA Researchers (Deep Research Alignment)

Professor / Scholar	Institution & Department	Specific Research Niche & Benchmark Focus	Custom High-Response Hook
Markus Pelger	Stanford University (MS&E;)	Financial Machine Learning & Latent Asset Pricing	MERA-KMPA Persistent Topology for non-linear return manifolds
Jose A. Perea, PhD	Northeastern University (Math)	Topological Data Analysis & Vector Bundles	Sliding window persistent 1-cycles (beta_1) in financial series
Henry Adams	University of Florida (Math)	Vietoris-Rips Complexes & Metric Homology	Vietoris-Rips filtration limits on asset correlation graphs
Bastian Grossenbacher-Rieck	Univ. of Fribourg (ML)	Topological Machine Learning & Graph Kernels	Persistent Betti numbers (beta_0, beta_1, beta_2) vs Weisfeiler-Lehman
Ludovic Phalippou	University of Oxford (Finance)	Private Equity Dynamics & Alternative Assets	Fee structure transparency & non-linear private fund returns
Marin Soljagic	MIT (Physics)	Nanophotonics & Optical AI Computing	Optical hardware acceleration for real-time TDA persistent homology

2. Top UHNWI Wealth Directors & Estate Trust Leads

Craig Franklin (Morgan Stanley Family Wealth Director): Highest priority for NYL trust structuring and UHNWI estate risk mitigation.

Brenda Ell (Morgan Stanley Vice President / CPWA / CEPA): High priority for liquidity event structuring and business owner wealth preservation.
