

Client Acquisition & Google Ads API Automation Master Playbook

Automated Ad Campaigns, Weekly Budgets & First Client Acquisition Protocol

Sovereign Entanglement Asset Systems (SEAS) | Verified: July 26, 2026

1. Automated Weekly Ad Budget & Revenue Projection Matrix

Ad Budget Tier	Weekly Spend	Estimated Clicks (4% CTR)	Target Client Conversions	Primary Channel & Strategy
Starter Tier	\$50 - \$100 / wk	100 - 200 high-intent clicks	1 - 2 Paying Clients	Google Search Ads + Cold Email Engine
Growth Tier	\$150 - \$300 / wk	300 - 600 targeted clicks	3 - 5 Paying Clients	Google Search Ads + Retargeting Swarm
Scale Tier	\$500+ / wk	1,000+ qualified clicks	5 - 10+ Paying Clients	Automated Google Ads API + Display Swarm

2. Google Ads Manager & API Setup Protocol

Is Google Ads Manager Account required? YES! Your Manager Account (MCC) allows you to generate a Developer Token in Tools & Settings -> API Center, enabling 100% programmatic ad creation via Python / MCP.

Done-For-You Ad Automation: We configure `google-ads` Python SDK with Developer Token + OAuth2 Client ID/Secret to automate budget bidding, ad creation, and ROI tracking without manual UI work.
